

Good evening,

As a life-long CT resident, I am very against these two bill being proposed tomorrow SB184 and HB5262 as they would change the current voting rules and allow more mail-in votes, unnecessarily. I feel strongly that this would open the floodgates to fraudulent voting practices. The Covid emergency is over and we need to end all of these power grabs.

We cannot and must not circumvent our Constitution and allow these changes. We have zero voter protection processes in place and these bills must not pass. The vast majority of voters oppose this and will definitely make their voices heard at the vote. There is a mass exodus of CT citizens in process and it will continue if these vital issues are not remedied. We are entitled to a free and fair election!

Thank you- sincerely,

Joyce Boucino
Brookfield, CT resident
